Market Attention & Anomaly Audit: 'Intermittent fasting'

Visual Guide: The solid line plots genuine organic human traffic (with bots and anomalous spikes filtered out), while the dashed trendline captures the true multi-year direction. **Plain-Language Finding:** Across all compared languages, **Poland (pl)** clearly commands the highest, most resilient consumer demand (1,182 real human visits), far outpacing every other market. In contrast, European languages show sluggish curiosity or heavy bot distortions, confirming Japan as the standout #1 expansion target.

Rank	Target Market	Human Views	Growth CAGR	Trust	Priority (S_i)	Commercial Action
#1	Poland (pl)	1,182	+0.0%	50/100	50.1	Moderate potential. Observe for 1-2 quarters.
#2	Czechia (cs)	6,684	-57.5%	40/100	48.0	Moderate potential. Observe for 1-2 quarters.

EXECUTIVE SUMMARY

Decision: CONDITIONAL (CAUTION). Topic exhibits moderate data reliability (50/100) and flat/negative growth (+0.0%). While baseline interest exists, the market is maturing or heavily influenced by temporary media coverage. **Immediate Action:** Run a lightweight smoke-test landing page to validate actual willingness to pay before investing in full production.
